PROFESSIONAL SUMMARY

Java Full Stack Developer with 3.5+ years of experience building high-performance, scalable web and cloud-native applications. Skilled in developing RESTful microservices with Spring Boot, creating responsive frontends using React/Angular, and deploying on AWS/Azure with Docker and Kubernetes. Experienced in debugging complex issues, implementing CI/CD pipelines for automated delivery, and driving performance optimization within Agile teams across e-commerce, logistics, and enterprise domains.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript
- **Web Technologies:** HTML5, CSS3, Bootstrap, Material-UI
- **Frameworks & Libraries:** Spring Boot, ReactJS, Angular, Redux, JPA, REST, JWT
- **Databases:** MySQL, PostgreSQL, Oracle, MongoDB
- **Cloud & DevOps:** AWS (EC2, S3), Azure, Docker, Jenkins, Ansible, OpenStack
- **Tools:** Git, JIRA, Postman, IntelliJ IDEA, Eclipse, VS Code, DBeaver
- **Testing & Automation:** JUnit, Mockito, Selenium
- **Other:** Microservices, Kafka, CI/CD, Maven, Gradle

PROFESSIONAL EXPERIENCE

CONSULTANT | Deloitte, Hyderabad

March 2025 – PRESENT

Client: Dell Inc.
- Developed and enhanced logistics portals (GOLF, Dragon, TIP, 3PL) for Dell Inc. to streamline order processing and supply chain operations.
- Migrated legacy systems to microservices architecture, improving scalability, performance, and maintainability.
- Implemented flag-based feature enablement across backend microservices and frontend for faster, controlled feature rollouts.

SOFTWARE ENGINEER | Nisum Technologies, Hyderabad

JUNE 2024 – March 2025

Internal Project: VibeCart
- Developed VibeCart, an e-commerce website, leveraging modern frameworks to ensure scalability and performance
- Developed a scalable e-commerce platform using Spring Boot and React.
- Led Account Management and Offer Management Services, designed and implemented core features

Client: Williams-Sonoma Inc.
- Contributed to the **Share Cart** feature, enabling users to share their shopping carts for collaborative shopping experiences.
- Developed the **Registry** feature, allowing users to create event registries, share them with others, and add items seamlessly to the registries for gift purchases.

SYSTEM ENGINEER | Infosys Ltd, Hyderabad

JAN 2022 – JUNE 2024

- Developed and deployed **Infosys Polycloud Platform**, a multi-cloud management tool, improving cloud resource management by 60%.
- Integrated 8+ tools (**ServiceNow, OpenStack, Ceph, NetApp, Cloudian, OP5Monitor)** into the Polycloud framework, enhancing interoperability.
- Optimized resource utilization and monitored server performance metrics, increasing system efficiency by 50%.

- Reduced OpenStack server provisioning time by 85% through automation workflows, significantly enhancing operational efficiency.
- Created comprehensive end-to-end automation solutions using Ansible and integrated APIs, streamlining 18+ use cases, and reducing manual intervention by 70%.
- Developed Polycloud UI dashboards for trend visualization and forecasting, reducing decision-making time by 65% and improving operational insights.
- Led cloud decommissioning project, reducing manual efforts and time by 88%, and improving project turnaround times.

PROJECTS

Qkart - An E-commerce application offering a variety of products.
Tech Stack: React Hooks, Forms, Controlled Components, REST, JSON, React Router, Responsive Design, Debouncing
OCT 2023 – Project Link
- Implemented the core logic for authentication, display and search products, shopping cart and checkout.
- Enhanced UI for responsive design across devices, ensuring a consistent user experience.

QTify - A digital audio streaming service provider that offers free access to music, podcasts, and curated playlists.
Tech Stack: ReactJS, Module-scoped CSS, Flexbox, Swiper Library usage, API Integration and Data Handling, React Hooks
DEC 2023 – Project Link
- Created modular UI components including Cards, Carousels, and Buttons optimizing for reusability.
- Implemented an intuitive genre-based song filtering system using a tab component by modifying the one provided by Material UI, allowing users to browse songs by their preferred genre effortlessly.

QTrip - A travel website for adventure seekers.
Tech Stack: REST, Responsive Design, JSON, Event Handling, Conditional Rendering, Bootstrap Carousel
AUG 2023 – Project Link
- Created web pages using HTML and CSS and made them dynamic using JavaScript
- Improved UX with multi-select filters, image carousels Implemented conditional rendering of page elements

ACCOMPLISHMENTS
- **Insta Award (Infosys, 2023, twice):** Recognized by Project Manager for outstanding project performance.
- **Rookie of the Quarter (Infosys, Mar 2024):** Awarded by Technology Architect for exceptional early career impact.
- **Applause Award (Deloitte, Oct 2025):** Honored by Leadership for delivering high-impact project results.

CERTIFICATIONS
- Infosys Certified Spring Boot Developer
- Infosys Certified Java Programmer
- Infosys Global Agile Developer Certification
- Infosys Certified Cloud Beginner
- AZ-900 Microsoft Certified Azure Fundamentals
- AWS Certified Cloud Practitioner
- Oracle Cloud Infrastructure AI Foundations Associate

EDUCATION
Bachelor Of Technology in Mechanical Engineering

Vignan's Lara Institute of Technology & Science | Guntur - Andhra Pradesh

APR 2021 – 8.2 CGPA
